further gain of 3 points. Late this afternoon the story was current explanatory of the advance in the small group of Western stocks above named, to the effect that the 'Frisco line had bought Eastern Illinois on a basis of 245 or better. There seems to be substantial basis for this report, although it may be that the figure at which Eastern Illinois stock is to be paid for is too high. That the two roads hausted, else these speculative pool are to be joined may be accepted as practically certain-as certain as railroad deals can be before they are actu-

Illinois Central and Rock Island the intending buyers. It has also figured in the Louisville and Nashville concolldation gossip. It now turns out that the road is to land in the possession of the Frisco people and it is current talk that the enlarged system will be taken over by the Rock Island.

The buying of Illinois Central to-day seems to have been on the theory that it was the purchasing road. As soon as the mistake was corrected there was a rush to unload, which caused a sharp reaction in this Harriman stock.

Gold shipments, the Rock Island financial pla and a market full of stop orders were the causes given for the prevailing nervousness in stocks to-day.

The gold engagements to-day fell far short of anticipations, though of sufficient importance to show that the movement is not over. The rate of exchange still gives leeway for exportations of the metal. The buying of Illinois Central to-day

The Wheat Market.

The wheat market to-day opened fevrish and excited. There was a tremendous rush of selling orders on bearish erop news and the whole market went down with a rush. Corn broke badly, September going off a full cent in the first five minutes. There was a lack of confidence in buil circles which tended to further weaken the market. Wheat rallied a little later, but broke again under liquidation.
